Magical Pumpkin Patch

Children of Morrow Home's YOUNG AT HEART CHILD CARE and residents conjured up a little Morrow Home magic. The residents and children were given "magical pumpkin seeds" to plant in the facility's courtyard. Together the children & residents recited a pumpkin-growing verse; blanketed the area where seeds were planted with a special cover and waited until the next day for the unveiling. The children lifted the cover and were amazed to find their wish had come true! Each child received a pumpkin to decorate with the residents.
