

We are pleased to share another wonderful success story from:
Morrow Home Community

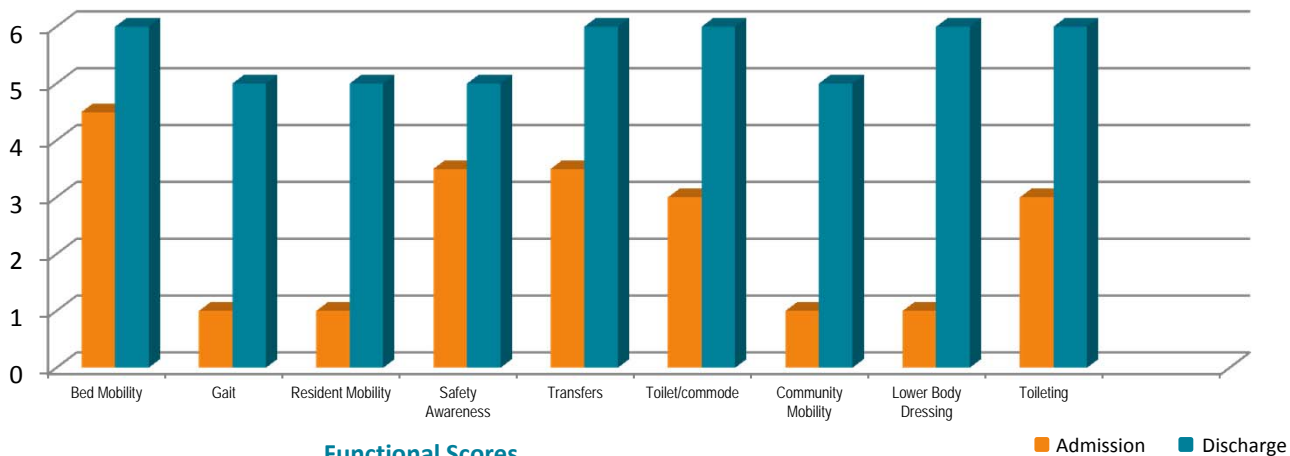

Name: David Hendricks
Admitting Osteomyelitis
Admission Date: 01/13/2016
Discharge Date: 02/13/2016
Discharge Location: Home

Success Story

82 year-old male was admitted to Morrow Home for rehab following a partial right foot amputation. Patient received physical and occupational therapy six days a week so he could return home as soon as possible. David was unable to place weight on his foot for two weeks. Once he could place weight on his foot, he received gait training, transfer training, and learned how to manage getting dressed safely. After four weeks of therapy, he was able to return to his independent home.

Functional Outcome Measures- PT/OT

- Functional Scores**
- 7.0 - **Complete Independent** – No assist, no equipment
 - 6.0 - **Modified Independent** – No Assist, but equipment or extra time
