

STEPS
for admission

1. Return a completed application and signed medical release form to the Adult Living Services Housing Coordinator's office.
2. Once your application has been reviewed, our staff will contact you with the status of the application.
3. Our nurse will contact you to set up an assessment to determine which living setting can best meet your needs.
4. An appointment with your primary care provider is needed for the potential resident to complete the medical provider report and POST form together.
5. An apartment/room is determined once staff has received all necessary paperwork.
6. Once all the above is in place, we will then confirm an admission date.
